## A Shattered Nervous System. FINALLY HEART TROUBLE. Restored to Health by Dr. Miles' Nervine.

MR. EDWARD HARDY, the jolly manager of Sheppard Co.'s great store at Braceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became dependent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life. Dr. Miles' Nervine is sold by all druggists under a positive guarantee, first bottle refunded, second bottle refunded, third bottle refunded. Book on diseases of the heart and nerves free. Address: DR. MILES MEDICAL CO., Elkhart, Ind."

## AN ARMY STANDARD

Said That One Should Be Established According to Population.

## MILES ON REORGANIZATION

Should Be One Soldier For Each Thousand Citizens—Necessity For Trained Troops Insured to Hardships Developed by the Spanish War—Recommendations to Congress.

Washington, Sept. 10.—General Miles came to the war department yesterday and after spending a short time in his room at army headquarters went to the office of the secretary of war. Acting Secretary McKeljohn, who was at Secretary Alger's desk, and General Miles chatted for some time on general topics and the campaign in Porto Rico and the return trip of the commanding general. Shortly afterward General Miles left the department.

Talking of the future of the army, General Miles said that there were a number of matters which required careful and deliberate consideration, with respect to the army organization, and that undoubtedly steps in that direction would be taken as soon as practicable. The matter of mustering out the volunteer general officers, in correspondence with the general reduction of the army by mustering out, he said, would have to be taken up at an early date, and that, undoubtedly, would cause a rearrangement of the department commands.

With respect to the reorganization of the army General Miles said that the experience of this war had very clearly demonstrated what military authorities well understood before, that the establishment of a standard was necessary to the entire efficiency of the army. He said it was his intention to recommend a plan of reorganization to congress and that he believed the necessity for it would be recognized by the public and by congress. The acquisition of territory obviously made it necessary that there would be a larger army, and the experience of the war had demonstrated the necessity of establishing a standard and having the troops thoroughly trained to the military service. It was desirable, he said, that the army should be organized on the basis of one soldier to every certain number of inhabitants.

Need of Trained Soldiers.  
He thought that one soldier to every 1,000 population probably would be found to be about the right ratio for a standard, and that the army (this standard being adopted) would increase according to the recognized needs of the government in an exact ratio to the increase of the population. It was very important, and this had been clearly demonstrated in the war with Spain, that there should be a full complement of noncommissioned officers and men, as well as of commissioned officers, who were trained to the hardships of military life and who knew how to take care of themselves and to look out for their own health and comfort in campaign.

It was just as important to the efficiency of an army that the men should have training for the endurance of marches, methods of protecting themselves against severe weather and disadvantageous climatic conditions, knowledge of the proper food and how to care for their persons so as to preserve their health, strength and efficiency; and that there should be a sufficient number of non-commissioned officers thoroughly trained in the knowledge essential to a soldier's life and to the care of the men. He said that it was just as necessary that soldiers should have proper training as it was to train men to build a house, or to have a man skilled in his profession to perform any professional service. It was essential.

When a baby smiles in its sleep it is the mother's fond belief that an angel is kissing it. No woman attains the supreme joy of womanhood until she knows the caressing touch of a first-born's fingers. No woman knows the supreme sorrow of womanhood until she sees her baby in the cold embrace of death.

Thousands of women daily achieve womanhood's supremest joy, only to meet, a few days or weeks of months later, its supreme sorrow. This is because so many babies are born into the world with the seeds of death already sown in their little bodies. If a woman would have healthy, robust children, strong and able to withstand the usual ills of childhood, she must "look before she leaps."

If a woman will take the proper care of her health in a womanly way, during the period of prospective maternity, she may protect herself against much pain and suffering and possible death, and insure the health of her child. Dr. Pierce's Favorite Prescription is the greatest of all medicines for prospective mothers. It acts directly on the delicate and important organs that bear the burdens of maternity and makes them strong, healthy, vigorous and elastic. It allays inflammation, heals ulceration, soothes pain and tones the tortured nerves. It banishes the usual discomforts of the expectant period and makes baby's advent to this world easy and almost painless. It insures an ample supply of nourishment. It is the greatest known nerve tonic and invigorator for women. All good dealers sell it. Say "No" and stick to it when urged to accept a substitute said to be "just as good as Dr. Pierce's Favorite Prescription."

"I had miscarried twice and was so weak I could not stand on my feet," writes Mrs. Minnie Smith, P. M., of Lowell, Lane Co., Oregon. "I took two bottles of Dr. Pierce's Favorite Prescription and now have a healthy baby and am stronger than for twelve years."

The quick constipation cure—Doctor Pierce's Pleasant Pellets. Never gripe. Accept no substitutes or imitations.

that an army should be composed of soldiers trained to their profession, commanded by efficient officers in every grade and controlled strictly according to military principles. That military operations should be directed by military men, he said, was too obvious to need to be stated.

## SENOR CANALEJAS.

Denounces the Spanish Government Collectively and Individually.

Madrid, Sept. 10.—In the chamber of deputies Senor Canalejas, in the course of a long speech, of violent and unmeasured abuse, denounced the government collectively and individually for its conduct during the war and now in the peace negotiations. He declared that whereas the issue with the politicians at first was war a l'outrance it had become peace equally a l'outrance.

He produced a sensation by asserting that when Admiral Cervera asked for instructions of war the minister for the colonies replied to him, "May God help you."

Senor Canalejas accused Senor Sagasta of constituting himself dictator merely to satisfy his personal ambitions and he attacked Lieutenant General Correa, minister of war, and Captain Annon, minister of marine, mercilessly for their incapacity.

## Manila News.

Manila, Sept. 10.—In conformity with the new regulation most of the Spanish steamers are taking our American registry. The native crews refuse to serve under Spanish officers and the insurgents demand that the American authorities employ no Spaniards in any capacity whatever. The insurgents continue divided between those who advocate absolute independence and those who favor an American protectorate.

## WAR INVESTIGATION.

President Asks General J. B. Gordon to Be One of the Commissioners.

Atlanta, Ga., Sept. 10.—A telegram from President McKinley was received yesterday by the family of General John B. Gordon, asking the general to accept a position as a member of "a commission to examine into the conduct of the commissary and medical departments of the army in the recent war with Spain."

President McKinley expressed the opinion that General Gordon would do the country a great service by accepting a position on the committee and earnestly hoped that he would see fit to become a member.

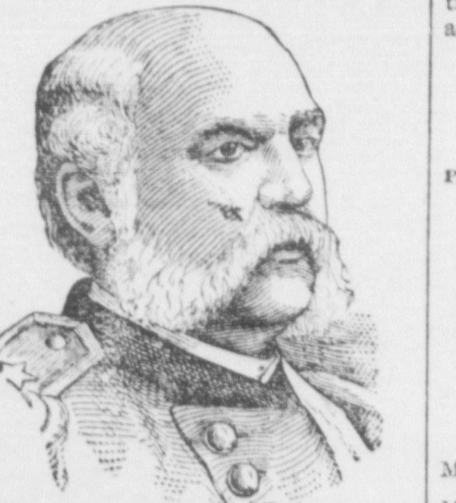

The specific object of the commission is stated in the telegram to be an examination into the commissary, quartermaster and medical branches of the war department and into the extent, cause and treatment of sickness in the field and the camps.

The telegram did not state who the other members of the investigating board would be and closed with a request for serious consideration of the offer. General Gordon is at Reynolds, Ga., and is inaccessible.

## WAR DEPARTMENT.

President Decides To Appoint a Commission of Investigation.

Washington, Sept. 10.—The president has decided to appoint a commission to investigate the war department in re-

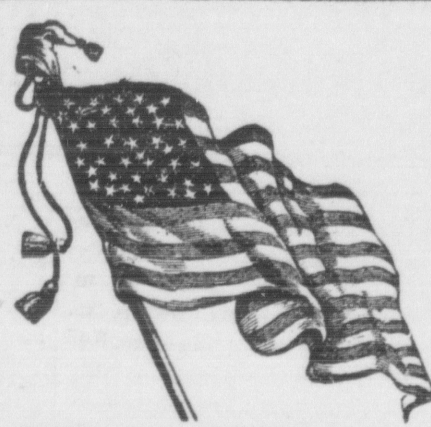

MAJOR GENERAL SCOTFIELD.  
lation to conduct of the Hispano-American war. Major General Schofield and ex-Senator John B. Gordon of Georgia, have been asked to accept places upon the commission.

## SPAIN'S PROTEST

Against the Capitulation of Manila Sent to M. Cambon.

London, Sept. 10.—The Madrid correspondent of The Standard says: "The government recently forwarded to M. Cambon, the French ambassador at Washington, a long and strongly argued statement respecting the Philippines, which he will communicate verbally to the Washington government."

Spain protests against the capitulation of Manila because it was made two days after the protocol was signed. It says that the revenue from the Manila customs may continue devoted to the service of the Philippine loan of 1897; and finally, it insists upon the United States compelling Aguinaldo to liberate

a thousand Spaniards now in his custody, most of whom were placed there, the note asserts, by Admiral Dewey.

## Reviewed District of Columbia Troops.

Washington, Sept. 10.—From the portico of the white house the president and all the members of the cabinet now in the city yesterday reviewed the First District of Columbia volunteers on their return from the war. It was an inspiring sight as the heroes marched under the portico, receiving the salutation of the president, while a dense crowd gave an enthusiastic welcome to the soldiers. The national capital was in holiday attire as a tribute to the district troops, Pennsylvania avenue being hung from end to end with flags and bunting.

## First Illinois.

Cleveland, Sept. 10.—The First Illinois regiment of infantry of Chicago passed through Cleveland on four Lake Shore trains last evening on the way home. Although there were 210 sick men, none of them were in a serious condition.

## Wants His Old Command.

Washington, Sept. 10.—General Shafter has expressed his wish to the secretary of war that when the department commanders are sent to their posts he would prefer to have his old command, the department of California. It is probable that it will be given him.

## Alger Increases the Burial Allowance.

Washington, Sept. 10.—Secretary Alger has directed that an order be issued that instead of the regular allowance of \$10 for the burial of a soldier, that \$35 should be allowed and the remains transported home at the government's expense.

## Peace Commission.

Washington, Sept. 10.—President McKinley yesterday announced the names of the peace commissioners. They are Secretary Day, Senators Davis, Frey and Gray and Whitelaw Reid.

## G. A. R.

Thirty-Second Annual Encampment Concludes Its Work.

Cincinnati, Sept. 10.—The work of the 32d annual encampment of the Grand Army of the Republic was happily concluded late yesterday afternoon. The desire to complete the work and turn to other duties was so great that everyone connected with the business of the encampment felt inclined to hurry and for this reason, perhaps, the expected discussion on the resolutions from the pension committee did not occur. The role in almost every instance was to adopt reports as presented and in this way the pension report went through without objection although it was modified later to take away any impression that might have arisen that President McKinley was under censure. The discussion showed remarkable spirit, honesty, earnestness and an unusual gift of oratory. But above all there was a disposition to take no radical or undignified action.

## JURY DISAGREED.

An Aged Negro to Be Tried Third Time For Assault.

Lexington, Ky., Sept. 10.—James Nelson, an aged negro charged with an attempt to commit a criminal assault, enjoys the record of having had two trials within 36 hours. On his first trial the jury failed to agree, and after a wait of 20 minutes he was again put on trial and again the jury failed to agree and was discharged. He will have his third trial next week. On both trials the jury stood 7 to 5 in favor of acquittal.

## HAWAIIAN ISLANDS

Territory of Hawaii Is the Name the Commission Will Recommend.

## TERRITORIAL ASSEMBLY

With Limited Powers Will Probably Be Granted—Islanders Will Have an Opportunity to Exercise the Highest Attributes of American Citizenship—Commissioners Expect to Adjourn Sept. 20.

San Francisco, Sept. 10.—The steamer Coptic from Yokohama and Hong-Kong, via Honolulu, brings the following advices from the latter city, under date of Sept. 3:

It will be the "territory of Hawaii." That is the name which the annexation committee has decided to recommend to congress. Thus will be preserved in the political nomenclature of the United States the distinctive origin of this part of the United States. The history and trading of the islands, and the associations that no resident here wants forgotten will go on in unbroken union with the name.

The form of the government will be modeled on that of existing territories. There will be no more further departures from this form than local conditions and national political considerations make necessary.

It is probable that in working out the details the form of government will not approximate so closely to that of state government as the ordinary form of government does. But the ultimate possibility of statehood will not be barred. There will be no District of Columbia or Alaska form of government proposed.

Local self government will be given through the extension of the municipal idea. The islands will be divided into municipal districts, having control, under restrictions and limitations, of purely local affairs. Honolulu, for instance, will be a municipal district, embracing the whole of the island of Oahu.

Hawaii may be divided into two districts and Molokai, Lanai and Niihau may be attached to some other municipal district. The question of a territorial legislature has been fully settled. There will probably be one, but with limited powers. All the attributes of the sovereignty, however, will be exercised by the national government of the United States. The people of Hawaii will be called on to consider themselves Americans, looking to the national government as a source of national power. In local affairs they will have the opportunity of exercising the highest attribute of American citizenship, local self-government. The form of government the commission will recommend will be one calculated to do away with the associations of national independence which have grown up in the last 80 or 90 years and to create associations and the feeling of union with the United States of America.

It is pretty clear, from what has been said by members of the commission from time to time in framing a form of government for these islands, they have also been charged by the administration at Washington with forming a model which can be adapted to Porto Rico and other new possessions the war has brought the United States. The commission is trying to do so shape its work as to be able to conclude its labors Sept. 20.

## NETHERLAND QUEEN

Wilhelmina Fired Upon by an English Anarchist, Who Is Arrested.

Berlin, Sept. 10.—The Lokalanzeiger says that a fortnight ago an attempt was made to assassinate Queen Wilhelmina, near Amersfort, Province of Utrecht, on the road between Castle Soestdyk and Baara. A man emerged from behind a tree and fired a revolver at her majesty. The bullet missed the queen but ploughed the cheek of a lady in attendance. The would-be assassin was arrested. He is supposed to be an English anarchist. The strictest secrecy has been maintained hitherto as to the affair in order not to disturb the enjoyment of the enthronement festivities.

## NOT HALL'S SLAYER

R. D. Cole Kills an Innocent Man For a Murderer.

Hazel, Ky., Sept. 10.—The man shot and killed by R. D. Cole as the suspected murderer of Senator Hall at Staunton, proves to have been innocent. His name was Antiechek and not Otto Matheus, the name of the alleged murderer. Cole and wife and son, it is said, assaulted Antiechek in his room at 4 o'clock in the morning and when he attempted to escape fired on him with a heavily loaded shotgun. His leg at the thigh was almost shot off by the charge, and he bled to death in a few hours. The son of Hall says Antiechek in no way answers the description of his father's slayer. Cole is under arrest.

Prohibited From Entering Palestine.  
Washington, Sept. 10.—The Turkish legation issues the following statement: "The entrance into Palestine is formally prohibited to foreign Israelites, and consequently the imperial Ottoman authorities have received orders to prevent the landing of immigrant Jews in that province."

Bowling Green Gets the Foxhunting.  
Bowling Green, Ky., Sept. 10.—President Halden Trigg of the National Foxhunter's Association has wired here that this city has been selected as the place for holding the annual meet this fall.

## BRADSTREET

Shows There Is a Growing Strength in the General Markets.

New York, Sept. 10.—Bradstreet will to-day say heat and holidays have imparted an irregular appearance to speculative and general distributive trade this week, and therefore to bank clearing returns more particularly at the east, but with the arrival of cooler temperatures some improvement is reported at these markets. Generally speaking, favorable basic features already noted still continue most in evidence and the attitude of quiet confidence in future good trade is unabated.

Conditions in many leading industries are of continued and in some cases growing strength. The general level of prices of staples is the highest reached for five years past.

Railway earnings, favored by the enlarged movement of wheat to market, are showing larger gains than have been recently reported, a good export demand for agricultural and manufactured products is reported, failures remain at a minimum, and reports of poor trade are conspicuous by their infrequency. Less favorable crop reports from abroad and good export inquiry are reflected in a rather steadier tone in wheat and in advanced quotations for ocean freights. Corn continues to experience a weather market, but prospects of yield are still regarded as favorable. Following the intense activity in the placing of orders for iron and steel in the past few weeks has come a quieting in the demand, but experiences of buyers and the very firm and in some cases the upward tendency of prices point to the conclusion that the lull is due almost entirely to the mills being already heavily oversold.

## CURRENCY SIXES

Government Offers to Redeem \$14,000,000 of Them to Reduce Gold In Treasury.

Washington, Sept. 10.—Another gain in the treasury gold yesterday of \$2,399,603 brings the total net gold up to \$232,394,394. Considerable of the increase is due to the payments for the new war bonds and further additions from the same cause will result. With a view to disbursing some of the yellow metal the secretary of the treasury has offered to redeem the \$14,000,000 old currency 6s, due at the first of the new year, and to anticipate the October interest on the 4 per cents. If the latter offer is taken advantage of, it will absorb about \$5,500,000, which with the whole outstanding issue of currency 6s redeemed would require nearly \$20,000,000. Some of the 6s already have been presented for redemption, but enough data is not yet available at the department to indicate whether the holders generally will be willing in advance to part with their bonds, which pay a good rate of interest.

## Tragedy Recalled by a Coming Wedding.

Frankfort, Ky., Sept. 10.—The wedding of Mrs. Virginia Marshall Brown, widow of the late Arch D. Brown, and Mr. Jo W. Posey of Denver will occur at Omaha, Neb., next Monday. Arch D. Brown was a son of ex-Governor John Young Brown, and was killed by Fulton Gordon in Louisville in 1895. Gordon also killed his wife.

## Burned to Death in a Mine.

Pineville, Ky., Sept. 10.—J. R. Justice, mining engineer at Bear Creek coal mines, six miles from this place, has perished in a room of the mines. His clothes caught on fire from the gas and were burned from his body in an instant. His body was completely burned and blistered all over. His home was in North Carolina.

## WIRE TICKS.

France has taken steps to drive out the Spanish reservists, who have been seeking refuge in that country. President McKinley has not yet given his final consent concerning the parade of troops in New York city.

The state health officer of Florida has raised the quarantine against Key West, there being no yellow fever there. Foreign admirals have requested the powers to send a battalion each to reinforce the international garrison at Canea.

Articles of incorporation of the Federal Steel company, with a capital stock of \$200,000,000, have been filed at Trenton, N. J.

CONVENTION CALL.

Whereas a majority of the democratic voters of Jackson county have repudiated a so called democratic primary election and the nominees of said primary election, which was in its rules and regulations governing said primary, so unfair, unjust and undemocratic that more than three-fourths of the democratic voters of the county refused to recognize the said primary or participate in said primary election, and

Whereas the republican county central committee at a regular and full meeting of the committee, held in Seymour on the 18th day of August, 1898, declared themselves as willing to affiliate with all voters of Jackson county who were opposed to the so called democratic ticket and appointed a committee of five members of their county committee to confer and arrange with a like committee of five democrats, as to time, manner, etc., of holding a convention of the independent voters of Jackson county, therefore be it resolved by this joint committee of five democrats and five republicans:

1.—That a delegate convention of the voters who desire to act independently be held at Seymour, Ind., on Saturday the 17th day of Sept., 1898, at one o'clock p. m.

2.—That said delegate convention be upon the basis of one delegate vote for each 25 votes cast for Bryan and McKinley, at the last general election to be apportioned equally among the democrats and republicans from the several townships of the county. The number of delegates each township will be entitled to in said convention will be as follows:

Townships.	Dem.	Rep.
Brownstown.....	16	16

Driftwood.....	6	6
Grassfork.....	6	6
Owen.....	8	8
Saltercreek.....	12	12
Hamilton.....	9	9

Washington.....	4	4
Jackson.....	37	37

The Colonel Roosevelt stock is away up and it will be difficult for his opponents to prevent his nomination for governor.

The people of Indianapolis are anxiously awaiting the return of their baseball club, for they are likely to end the season in first place again. In the mean time they will receive the returning soldiers.

The surviving veterans of the Civil war at Cincinnati the past week showed that they have little sympathy with that class of men and newspapers who are so loud in denouncing the management of the war with Spain. They know something of the hardships that soldiers must endure.

The people of Indianapolis are not so well pleased with Tom Taggart as they thought they would be. That raise in the tax levy has given a vast number of those who voted for Taggart a better understanding of their mayor's political methods. They now see the mistake that was made at the expense of the taxpayers.

The Texas Democratic convention pledged the Democracy of Texas to support William Jennings Bryan in 1900. In the same platform they endorsed the colonial platform of President McKinley, which includes Puerto Rico, and possibly Cuba. The last public utterance of William J. Bryan before going to the field with his regiment was, that he was unalterably opposed to all colonial expansion. It will be necessary for the Democrats of Texas either to modify their declaration concerning colonial expansion or withdraw their endorsement of Colonel Bryan.

A SENSIBLE VIEW.

The Cincinnati Enquirer administers some kindly criticism to the partisan press and politicians whose patriotism of three months ago has been displaced by a spirit of faultfinding. The Enquirer says: "Under a strong tension of patriotism everything is forgotten but the nation's needs. Up with the flag; on with the march. The danger being past, the reaction comes. The spirit of exaltation gradually yields and the spirit of criticism and fault finding comes forward as if to make up for lost time. \* \* \*

"What room was there for any uncomfortable thought in any American's mind when the news came of the prodigious exploit of Dewey and his men at Manila? Who thought of doubting the perfection of the administration of the army and navy during the three weeks of the Santiago campaign, resulting in the destruction of the Spanish fleet, the capture of the city and army, and the cry of 'enough' from the insolent foe? Ah, those were glorious days. It was true Shafter had been rash, so was Grant at Fort Donelson. What nation ever gained equal prestige in three months? \* \* \*

"These glorious achievements ought to be constantly kept in mind to restrain the spirit of pessimism now so rife in the country. It is true our soldiers have suffered and are suffering in hospital camps. But who shall presume to determine how much of this could have been averted by human agencies? Does any man believe the President or the Secretary of war has been indifferent at any time to the needs of the soldier? If there have been any unusual disasters in our armies, and if they have resulted from criminal negligence, there will be a time for the truth to be known, and lawful and reasonable methods for finding it out. \* \* \* Would it not be well if the public mind could now be turned to more interesting themes than either the accidents or the faults of army administration, and the world be permitted to see the American people a little better reconciled to their own government than some of our newspapers have represented them to be during the last fortnight?"

For Malicious Trespass.

This afternoon Judge Hoover is hearing the case of the state against Kate Leach charged with malicious trespass. The suit is the outgrowth of a concrete sidewalk contract between the city and E. G. Weathers. The contract included the putting down of a sidewalk in front of Mrs. Leach's property on west Second street to which she objected. On August 29th after the stakes were set and everything was ready for the concrete, it is alleged that Mrs. Leach took an ax and broke up some of the stakes and damaged a part of the wooden curbing. This suit is the result. In the trial the State is represented by Prosecutor Honan and the defense by W. B. Branaman. Several witnesses were summoned and gave testimony.

VISITING A SHRINE.

Lieutenant Rawlinson's Daring Entry Into the Sacred City of Kum.

Kum, a walled city of Persia, ranks second to Mecca in sanctity, on account of the famous shrine of Masuma Fatima, sister of the Imam Kiza, a famous saint of the Mohammedans. While Lieutenant Rawlinson was on his way to Tehran he heard much of this sacred city and the glories of the shrine, which, it was said, no European had ever entered. Death, so rumor whispered, would be the portion of the audacious infidel who should be discovered within its precincts.

To a young and ardent spirit a dangerous adventure is an irresistible attraction. Young Rawlinson determined to visit the shrine. Disguised as a Persian pilgrim, thousands of whom annually journey to the sacred city, he joined the crowd of pilgrims. His knowledge of Persian and of the customs of the country enabled him to pass undetected through the temple gates and to make his way to the tomb of the saint. The guardian gave him the customary form of words and he repeated them.

But his curiosity almost caused his detection. Attracted by magnificent suits of steel armor which hung on the walls, he was gazing at them, when suddenly he found that he had turned his back upon the sacred shrine where-in the saint was entombed.

A thrill of alarm startled him, but the discourtesy, impossible to a "true believer," had not been noticed. If it had been, there would probably have been no further career for the young lieutenant, who subsequently became the decipherer of Assyrian and Babylonian inscriptions and texts, and died the renowned orientalist, Sir Henry Rawlinson.—Youth's Companion.

Dancing Birds.

One of the many strange sights on the plains of northern Africa is a party of waiting ostriches. Their queer antics have been described thus:

"When there are a number of them, they will start off in the morning and after running a few hundred yards will stop, and with raised wings will whirl rapidly round till they are stepped or perhaps break a leg. The males pose also before fighting and to make their court. They kneel on their ankles, opening their wings and balancing themselves alternately forward and backward or to one side or the other, while the neck is stretched on a level with the back and the head strikes the sides, now on the right, now on the left, while the feathers are bristling. The bird appears at this time so absorbed in its occupation as to forget all that is going on around him and can be approached and caught. The male alone utters a cry, which sounds much like an effort to speak with the mouth shut tight."

SHABBY CLOTHES

eat up a man's confidence. The poorly dressed man is afraid to push ahead—it brings his clothes into prominence and this makes him uncomfortable. He usually gets ready-to-wear clothing. Sometimes it fits him, sometimes it doesn't. It gets worn and shabby, and still he's compelled to wear it. For about the price of ready-made clothes we could have made him an elegant Fall suit perfect in style, fit and finish.

This battle flag was presented to Mr. Henry by his old Regimental Commander, Col. T. J. Parker, and is a tattered and torn relic of sixteen historical battles. Mr. Henry intends to carry in his parades this old battle flag, under which he served his country. Their parade will be given here at noon next Monday on which date Hi and his minstrel will appear at the Seymour Opera House.

## A Shattered Nervous System.

FINALLY HEART TROUBLE.  
Restored to Health by Dr. Miles' Nervine.

MR. EDWARD HARDY, the jolly manager of Shepard Co.'s great store at Braceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

## AN ARMY STANDARD

Said That One Should Be Established According to Population.

## MILES ON REORGANIZATION

Should Be One Soldier For Each Thousand Citizens—Necessity For Trained Troops Insured to Hardships Developed by the Spanish War—Recommendations to Congress.

Washington, Sept. 10.—General Miles came to the war department yesterday and after spending a short time in his room at army headquarters went to the office of the secretary of war. Acting Secretary McKeljohn, who was at Secretary Alger's desk, and General Miles chatted for some time on general topics of the campaign in Porto Rico and the return trip of the commanding general. Shortly afterward General Miles left the department.

Talking of the future of the army, General Miles said that there were a number of matters which required careful and deliberate consideration, with respect to the army organization, and that undoubtedly steps in that direction would be taken as soon as practicable. The matter of mustering out the volunteer general officers, in correspondence with the general reduction of the army by mustering out, he said, would have to be taken up at an early date, and that, undoubtedly, would cause a re-arrangement of the department commands.

With respect to the reorganization of the army General Miles said that the experience of this war had very clearly demonstrated that military authorities well understood before, that the establishment of a standard was necessary to the entire efficiency of the army. He said it was his intention to recommend a plan of reorganization to congress and that he believed the necessity for it would be recognized by the public and by congress. The acquisition of territory obviously made it necessary that there would be a larger army, and the experience of the war had demonstrated the necessity of establishing a standard and having the troops thoroughly trained to the military service. It was desirable, he said, that the army should be organized on the basis of one soldier to every certain number of inhabitants.

Need of Trained Soldiers. He thought that one soldier to every 1,000 population probably would be found to be about the right ratio for a standard, and that the army (this standard being adopted) would increase according to the recognized needs of the government in an exact ratio to the increase of the population. It was very important, and this had been clearly demonstrated in the war with Spain, that there should be a full complement of noncommissioned officers and men, as well as of commissioned officers, who were trained to the hardships of military life and who knew how to take care of themselves and to look out for their own health and comfort in campaign.

It was just as important to the efficiency of an army that the men should have training for the endurance of marches, methods of protecting themselves against severe weather and disadvantages of climatic conditions, knowledge of the proper food and how to care for their persons so as to preserve their health, strength and efficiency; and that there should be a sufficient number of non-commissioned officers thoroughly trained in the knowledge essential to a soldier's life and to the care of the men. He said that it was just as necessary that soldiers should have proper training as it was to train men to build a house, or to have a man skilled in his profession to perform his professional service. It was essential.

When a baby smiles in its sleep it is the mother's fond belief that an angel is kissing it. No woman attains the supreme joy of womanhood until she knows the caressing touch of a first-born's fingers. No woman knows the supreme sorrow of womanhood until she sees her baby in the cold embrace of death.

Thousands of women find their womanhood's supreme joy, only to meet, a few days or weeks or months later, its supreme sorrow. This is because so many babies are born into the world with the seeds of death already sown in their little bodies. If a woman would have healthy, robust children, strong and able to withstand the usual little illnesses of childhood, she must "look before she leaps."

If a woman will take the proper care of her health in a womanly way, during the period of maternity, she may protect herself against much pain and suffering and possible death, and insure the health of her child. Dr. Pierce's Favorite Prescription is the greatest of all medicines for prospective mothers. It acts directly on the delicate and important organs that bear the burdens of maternity and makes them strong, healthy, vigorous and elastic. It allays inflammation, heals ulceration, soothes pain and tones the tortured nerves. It banishes the usual discomforts of the expectant period and makes baby's advent to this world easy and almost painless. It insures an ample supply of nourishment. It is the greatest known nerve tonic and invigorator for women. All good dealers sell it. Say "No" and stick to it when urged to accept a substitute said to be "just as good as Dr. Pierce's Favorite Prescription."

"I had miscarried twice and was so weak I could not stand on my feet," writes Mrs. Minnie Smith, P. M., of Lowell, Lane Co., Oregon. "I took two bottles of Dr. Pierce's Favorite Prescription and now have a healthy baby and am stronger than for twelve years."

The quick constipation cure—Doctor Pierce's Pleasant Pellets—Never gripe. Accept no substitutes or imitations.

that an army should be composed of soldiers trained to their profession, commanded by efficient officers in every grade and controlled strictly according to military principles. That military operations should be directed by military men, he said, was too obvious to need to be stated.

## SENOR CANALEJAS.

Denounces the Spanish Government Collectively and Individually.

Madrid, Sept. 10.—In the chamber of deputies Senor Canalejas, in the course of a long speech, of violent and unmeasured abuse, denounced the government collectively and individually for its conduct during the war and now in the peace negotiations. He declared that whereas the issue with the politicians at first was war a l'outrance it had become peace equally a l'outrance.

He produced a sensation by asserting that when Admiral Cervera asked for instructions of war the minister for the colonies replied to him, "May God help you."

Senor Canalejas accused Senor Sagasta of constituting himself dictator merely to satisfy his personal ambitions and he attacked Lieutenant General Correa, minister of war, and Captain Annon, minister of marine, mercilessly for their incapacity.

## Manila News.

Manila, Sept. 10.—In conformity with the new regulation most of the Spanish steamers are taking our American registry. The native crews refuse to serve under Spanish officers and the insurgents demand that the American authorities employ no Spaniards in any capacity whatever. The insurgents continue divided between those who advocate absolute independence and those who favor an American protectorate.

## WAR INVESTIGATION.

President Asks General J. B. Gordon to Be One of the Commissioners.

Atlanta, Ga., Sept. 10.—A telegram from President McKinley was received yesterday by the family of General John B. Gordon, asking the general to accept a position as a member of "a commission to examine into the conduct of the commissary and medical departments of the army in the recent war with Spain."

President McKinley expressed the opinion that General Gordon would do the country a great service by accepting a position on the committee and earnestly

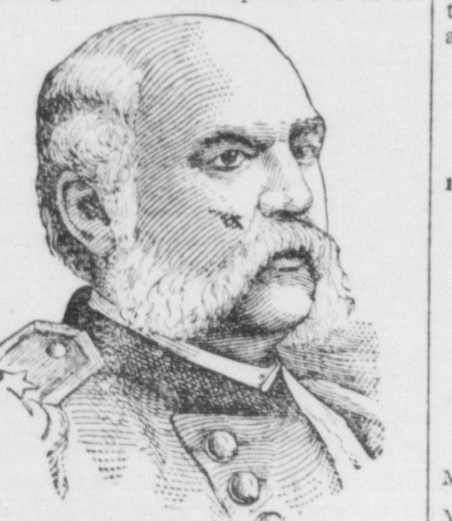

ly hoped that he would see fit to become a member. The specific object of the commission is stated in the telegram to be an examination into the commissary, quartermaster and medical branches of the war department and into the extent, cause and treatment of sickness in the field and the camps.

The telegram did not state who the other members of the investigating board would be and closed with a request for serious consideration of the offer. General Gordon is at Reynolds, Ga., and is inaccessible.

## WAR DEPARTMENT.

President Decides To Appoint a Commission of Investigation.

Washington, Sept. 10.—The president has decided to appoint a commission to investigate the war department in re-

lation to conduct of the Hispano-American war. Major General Schofield and ex-Senator John B. Gordon of Georgia, have been asked to accept places upon the commission.

## SPAIN'S PROTEST.

Against the Capitulation of Manila Sent to M. Cambon.

London, Sept. 10.—The Madrid correspondent of The Standard says: "The government recently forwarded to M. Cambon, the French ambassador at Washington, a long and strongly argued statement respecting the Philippines, which he will communicate verbally to the Washington government."

Spain protests against the capitulation of Manila because it was made two days after the protocol was signed. It says that the revenue from the Manila customs may continue devoted to the service of the Philippine loan of 1897; and finally, it insists upon the United States compelling Aguinaldo to liberate

a thousand Spaniards now in his custody, most of whom were placed there, the note asserts, by Admiral Dewey.

Reviewed District of Columbia Troops. Washington, Sept. 10.—From the portico of the white house the president and all the members of the cabinet now in the city yesterday reviewed the First District of Columbia volunteers on their return from the war. It was an inspiring sight as the heroes marched under the portico, receiving the salutation of the president, while a dense crowd gave an enthusiastic welcome to the soldiers. The national capital was in holiday attire as a tribute to the district troops, Pennsylvania avenue being hung from end to end with flags and bunting.

## G. A. R.

Thirty-Second Annual Encampment Concludes Its Work.

Cincinnati, Sept. 10.—The work of the 32d annual encampment of the Grand Army of the Republic was happily concluded late yesterday afternoon. The desire to complete the work and turn to other duties was so great that everyone connected with the business of the encampment felt inclined to hurry and for this reason, perhaps, the expected discussion on the resolutions from the pension committee did not occur. The rule in almost every instance was to adopt reports as presented and in this way the pension report went through without objection although it was modified later to take away any impression that might have arisen that President McKinley was under censure. The discussion showed remarkable spirit, harmony, earnestness and an unusual gift of oratory. But above all there was a disposition to take no radical or undignified action.

## JURY DISAGREED.

An Aged Negro to Be Tried Third Time For Assault.

Lexington, Ky., Sept. 10.—James Nelson, an aged negro charged with an attempt to commit a criminal assault, enjoys the record of having had two trials within 36 hours. On his first trial the jury failed to agree, and after a trial of 20 minutes he was again put on trial and again the jury failed to agree and was discharged. He will have his third trial next week. On both trials the jury stood 7 to 5 in favor of acquittal.

## HAWAIIAN ISLANDS

Territory of Hawaii Is the Name the Commission Will Recommend.

## TERRITORIAL ASSEMBLY

With Limited Powers Will Probably Be Granted—Islanders Will Have an Opportunity to Exercise the Highest Attributes of American Citizenship—Commissioners Expect to Adjourn Sept. 20.

San Francisco, Sept. 10.—The steamer Coptic from Yokohama and Hong-Kong, via Honolulu, brings the following advice from the latter city, under date of Sept. 3:

It will be the "territory of Hawaii." That is the name which the annexation committee has decided to recommend to congress. This will be preserved in the political nomenclature of the United States the distinctive origin of this part of the United States. The history and trading of the islands, and the associations that no resident here wants forgotten will go on in unbroken union with the name.

The form of the government will be modeled on that of existing territories. There will be no more further departures from this form than local conditions and national political considerations make necessary.

It is probable that in working out the details the form of government will not approximate so closely to that of state government as the ordinary form of government does. But the ultimate possibility of statehood will not be barred. There will be no District of Columbia or Alaska form of government proposed.

Local self government will be given through the extension of the municipal idea. The islands will be divided into municipal districts, having control, under restrictions and limitations, of purely local affairs. Honolulu, for instance, will be a municipal district, embracing the whole of the island of Oahu.

Hawaii may be divided into two districts and Molokai, Lanai and Niihau may be attached to some other municipal district. The question of a territorial legislature has been fully settled. There will probably be one, but with limited powers. All the attributes of the sovereignty, however, will be exercised by the national government of the United States. The people of Hawaii will be called on to consider themselves Americans, looking to the national government as a source of national power. In local affairs they will have the opportunity of exercising the highest attribute of American citizenship, local self-government. The form of government the commission will recommend will be one calculated to do away with the associations of national independence which have grown up in the last 80 or 90 years and to create associations and the feeling of union with the United States of America.

It is pretty clear, from what has been said by members of the commission from time to time in framing a form of government for these islands, they have also been charged by the administration at Washington with forming a model which can be adapted to Porto Rico and other new possessions the war has brought the United States. The commission is trying to so shape its work as to be able to conclude its labors Sept. 20.

## NETHERLAND QUEEN

Wilhelmina Fired Upon by an English Anarchist, Who Is Arrested.

Berlin, Sept. 10.—The Lokalanzeiger says that a fortnight ago an attempt was made to assassinate Queen Wilhelmina, near Amersfort, Province of Utrecht, on the road between Castle Soestdyk and Baara. A man emerged from behind a tree and fired a revolver at her majesty. The bullet missed the queen but ploughed the cheek of a lady in attendance. The would-be assassin was arrested. He is supposed to be an English anarchist. The strictest secrecy has been maintained hitherto as to the affair in order not to disturb the enjoyment of the enthronement festivities.

## NOT HALL'S SLAYER

R. D. Cole Kills an Innocent Man For a Murderer.

Hazel, Ky., Sept. 10.—The man shot and killed by R. D. Cole as the suspected murderer of Senator Hall at Staunton, proves to have been innocent. His name was Antiechek and not Otto Matthews, the name of the alleged murderer. Cole and wife and son, it is said, assaulted Antiechek in his room at 4 o'clock in the morning and when he attempted to escape fired on him with a heavily loaded shotgun. His leg at the thigh was almost shot off by the charge, and he bled to death in a few hours. The son of Hall says Antiechek in no way answers the description of his father's slayer. Cole is under arrest.

## Bowling Green Gets the Foxhunters.

Bowling Green, Ky., Sept. 10.—President Hadden Trigg of the National Foxhunter's Association has wired here that this city has been selected as the place for holding the annual meet this fall.

## BRADSTREET

Says There Is a Growing Strength in the General Markets.

New York, Sept. 10.—Bradstreet will to-day say that the markets have imparted an irregular appearance to speculative and general distributive trade this week, and therefore to bank clearing returns more particularly at the east, but with the arrival of cooler temperatures some improvement is reported at these markets. Generally speaking, favorable basic features already noted still continue most in evidence and the attitude of quiet confidence in future good trade is unabated.

Conditions in many leading industries are of continued and in some cases growing strength. The general level of prices of staples is the highest reached for five years past.

Railway earnings, favored by the enlarged movement of wheat to market, are showing larger gains than have been recently reported, a good export demand for agricultural and manufactured products is reported, failures remain at a minimum, and reports of poor trade are conspicuous by their infrequency. Less favorable crop reports from abroad and good export inquiry are reflected in a rather steadier tone in wheat and in advanced quotations for ocean freights. Corn continues to experience a weather market, but prospects of yield are still regarded as favorable. Following the intense activity in the placing of orders for iron and steel in the past few weeks has come a quieting in the demand, but experiences of buyers and the very firm and in some cases the upward tendency of prices point to the conclusion that the lull is due almost entirely to the mills being already heavily overstocked.

## CURRENCY SIZES

Government Offers to Redeem \$14,000,000 of Them to Reduce Gold in Treasury.

Washington, Sept. 10.—Another gain in the treasury gold yesterday of \$2,399,603 brings the total net gold up to \$233,394,394. Considerable of the increase is due to the payments for the new war bonds and further additions from the same cause will result. With a view to disbursing some of the yellow metal the secretary of the treasury has offered to redeem the \$14,000,000 old currency 6s, due at the first of the new year, and to anticipate the October interest on the 4 per cents. If the latter offer is taken advantage of, it will absorb about \$5,500,000, which with the whole outstanding issue of currency is redeemed would require nearly \$20,000,000. Some of the 6s already have been presented for redemption, but enough data is not yet available at the department to indicate whether the holders generally will be willing in advance to part with their bonds, which pay a good rate of interest.

## Tragedy Recalled by a Coming Wedding.

Frankfort, Ky., Sept. 10.—The wedding of Mrs. Virginia Marshall Brown, widow of the late Arch D. Brown, and Mr. Jo W. Posey of Denver will occur at Omaha, Neb., next Monday. Arch D. Brown was a son of ex-Governor John Young Brown, and was killed by Fulton Gordon in Louisville in 1895. Gordon also killed his wife.

**CONVENTION CALL.**

Whereas a majority of the democratic voters of Jackson county have repudiated a so called democratic primary election and the nominees of said primary election, which was in its rules and regulations governing said primary, so unfair, unjust and undemocratic that more than three-fourths of the democratic voters of the county refused to recognize the said primary or participate in said primary election, and

Whereas the republican county central committee at a regular and full meeting of the committee, held in Seymour on the 18th day of August, 1898, declared themselves as willing to affiliate with all voters of Jackson county who were opposed to the so called democratic ticket and appointed a committee of five members of their county committee to confer and arrange with a like committee of five democrats, as to time, manner, etc., of holding a convention of the independent voters of Jackson county, therefore be it resolved by this joint committee of five democrats and five republicans:

The Colonel Roosevelt stock is away up and it will be difficult for his opponents to prevent his nomination for governor.

The people of Indianapolis are anxiously awaiting the return of their base ball club, for they are likely to end the season in first place again. In the mean time they will receive the returning soldiers.

The surviving veterans of the Civil war at Cincinnati the past week showed that they have little sympathy with that class of men and newspapers who are so loud in denouncing the management of the war with Spain. They know something of the hardships that soldiers must endure.

The people of Indianapolis are not so well pleased with Tom Taggart as they thought they would be. That raise in the tax levy has given a vast number of those who voted for Taggart a better understanding of their mayor's political methods. They now see the mistake that was made at the expense of the taxpayers.

The Texas Democratic convention pledged the Democracy of Texas to support William Jennings Bryan in 1900. In the same platform they endorsed the colonial platform of President McKinley, which includes Puerto Rico, and possibly Cuba. The last public utterance of William J. Bryan before going to the field with his regiment was, that he was unalterably opposed to all colonial expansion. It will be necessary for the Democrats of Texas either to modify their declaration concerning colonial expansion or withdraw their endorsement of Colonel Bryan.

**A SENSIBLE VIEW.**

The Cincinnati Enquirer administers some kindly criticism to the press and politicians whose patriotism of three months ago has been displaced by a spirit of faultfinding. The Enquirer says: "Under a strong tension of patriotism everything is forgotten but the nation's needs. Up with the flag; on with the march. The danger being past, the reaction comes. The spirit of exaltation gradually yields and the spirit of criticism and fault finding comes forward as if to make up for lost time. \* \* \*

"What room was there for any uncomfortable thought in any American's mind when the news came of the prodigious exploit of Dewey and his men at Manila? Who thought of doubting the perfection of the administration of the army and navy during the three weeks of the Santiago campaign, resulting in the destruction of the Spanish fleet, the capture of the city and army, and the cry of 'enough' from the insolent foe? Ah, those were glorious days. It was true Shafter had been rash, so was Grant at Fort Donelson. What nation ever gained equal prestige in three months? \* \* \*

"These glorious achievements ought to be constantly kept in mind to restrain the spirit of pessimism now so rife in the country. It is true our soldiers have suffered and are suffering in hospital camps. But who shall presume to determine how much of this could have been averted by human agencies? Does any man believe the President or the Secretary of war has been indifferent at any time to the needs of the soldiers? If there have been any unusual disasters in our armies, and if they have resulted from criminal negligence, there will be a time for the truth to be known, and lawful and reasonable methods for finding it out. \* \* \* Would it not be well if the public mind could now be turned to more interesting themes than either the accidents or the faults of army administration, and the world be permitted to see the American people a little better reconciled to their own government than some of our newspapers have represented them to be during the last fortnight?"

**For Malicious Trespass.**

This afternoon Judge Hoover is hearing the case of the state against Kate Leach charged with malicious trespass. The suit is the outgrowth of a concrete sidewalk contract between the city and E. G. Weathers. The contract included the putting down of a sidewalk in front of Mrs. Leach's property on west Second street to which she objected. On August 29th after the stakes were set and everything was ready for the concrete, it is alleged that Mrs. Leach took an ax and broke up some of the stakes and damaged a part of the wooden curbing. This suit is the result. In the trial the state is represented by Prosecutor Honan and the defense by W. B. Branaman. Several witnesses were summoned and gave testimony.

**VISITING A SHRINE.**

Lieutenant Rawlinson's Daring Entry Into the Sacred City of Kum.

Kum, a walled city of Persia, ranks second to Mehed in sanctity, on account of the famous shrine of Masuma Fatima, sister of the Imam Riza, a famous saint of the Mohammedans. While Lieutenant Rawlinson was on his way to Teheran he heard much of this sacred city and the glories of the shrine, which, it was said, no European had ever entered. Death, so rumor whispered, would be the portion of the audacious infidel who should be discovered within its precincts.

To a young and ardent spirit a dangerous adventure is an irresistible attraction. Young Rawlinson determined to visit the shrine. Disguised as a Persian pilgrim, thousands of whom annually journey to the sacred city, he joined the crowd of pilgrims. His knowledge of Persian and of the customs of the country enabled him to pass undetected through the temple gates and to make his way to the tomb of the saint. The guardian gave him the customary form of words and he repeated them.

But his curiosity almost caused his detection. Attracted by magnificent suits of steel armor which hung on the walls, he was gazing at them, when suddenly he found that he had turned his back upon the sacred shrine where the saint was entombed.

A thrill of alarm startled him, but the discourtesy, impossible to a "true believer," had not been noticed. If it had been, there would probably have been no further career for the young lieutenant, who subsequently became the decipherer of Assyrian and Babylonian inscriptions and texts, and died the renowned orientalist, Sir Henry Rawlinson.—Youth's Companion.

**Dancing Birds.**

One of the many strange sights on the plains of southern Africa is a party of waltzing ostriches. Their queer antics have been described thus:

"When there are a number of them, they will start off in the morning and after running a few hundred yards will stop, and with mixed wings will whirl rapidly round till they are stupefied or perhaps break a leg. The males pose also before fighting and to make their court. They kneel on their ankles, opening their wings and balancing themselves alternately forward and backward or to one side or the other, while the neck is stretched on a level with the back and the head strikes the sides, now on the right, now on the left, while the feathers are bristling. The bird appears at this time so absorbed in its occupation as to forget all that is going on around him and can be approached and caught. The male alone utters a cry, which sounds much like an effort to speak with the mouth shut tight."
